

## Clark Forklift Part

Clark Forklift Parts - Performing worldwide, there are now 350,000 Clark forklifts and lift trucks in operation, with in excess of 250,000 of those in service in North America. Clark has five major lines of lift trucks across the globe, making it one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique brands of lift trucks, with components covering more than 120,000 specialized items for all of its automated equipment. Your local Clark Dealer is your complete source for availability of all your components requirements supplied by Clark Totalift.

Clark features a extraordinary Parts Supply team. The parts warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to provide the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a really amazing intercontinental support network. With over 550 locations globally, seller representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the material handling industry.

Clark proudly remains an innovative leader of the material handling industry, revolutionizing protection features such as the operator restraint system. This exceptional dedication to safety is at this time a standard feature on every lift truck.

Clark's relentless mission to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift maker across the globe to be certified with the globally approved quality standard ISO 9001 for all of their production facilities. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental restrictions, thus placing them in a dominant industry position.

Clark has selected the extremely economical and beneficial structure of "Lean Manufacturing" for its assembly facilities and use of resources. This structure was developed to acknowledge the most efficient approaches of manufacturing plant management and ensuring maximum proficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to improve the proficiency and brilliance of their products while minimizing expenses. The new value engineering program combines modern product growth and delivers improved customer support and service within the industry.
