

Meritor Parts

Meritor Parts - The Meritor Business is a premier global dealer founded upon one hundred years of custom of service and quality. Meritor concentrates on integrated systems with a range of modules and components to the original equipment makers and aftermarket equipment in the transportation and industrial trades.

Meritor prides itself in the company's distinctive energy and thinks that this particular energy contributes to their competitive advantage in the worldwide operations. The company values their clients and would like to ensure their success while anticipating their different requirements. Meritor starts with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 countries and employing more than 11,200 people, Meritor promotes innovation and collaboration amongst a team of experienced experts.

Meritor strongly believes in only employing future focused individuals. These top-caliber workers can rapidly get used to to changing environments and freely demonstrate the level of commitment and performance needed to be able to obtain results for the competitive market environment. The company empowers their teams to make sound business decisions in order to enhance the overall success of the company. In return, Meritor offers their workers different chances for professional and personal growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This consists of axles, drivelines, suspension and braking systems meant for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is also responsible for supporting the requirements of all their worldwide engineering staff.

Meritor's customer focused and dynamic Quality team is devoted to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated all around the world in 19 countries and in 5 different continents.

They have their supplier network which is specifically located in order to support the development of the business. Each regional team has globally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making in every part of the company. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is also comprised of transactional Green Belts who use Six Sigma tools to business techniques and implement lean techniques.
